### United Nations Children's Fund

Executive Board

**Second regular session 2008**

15-18 September 2008

Item 6 (d) of the provisional agenda\*

### **Recommendation for approval of additional regular resources for approved country programmes**

#### **I. Introduction**

1. The estimated funding target and financial plan contained in the UNICEF medium-term strategic plan (MTSP) for the period 2006-2009 (E/ICEF/2005/11) was approved by the Executive Board at its second regular session of 2005. Subsequent to the approval of the MTSP, the Executive Board approved at its second regular session of 2007 the planned financial estimates for the period 2007-2010 (E/ICEF/2007/AB/L.4). Regular resources planning levels for country programmes are established on the basis of the approved MTSP, taking into account the latest projections of income and expenditures.

2. As a result of the application of the modified system and as a function of the estimated global regular resources available for programmes in 2008 and 2009, the regular resources planning levels for 24 countries listed in Table 1 are higher than the regular resources levels originally approved by the Executive Board. The Executive Board is being requested to approve the additional regular resources to allow uninterrupted implementation of the country programmes previously approved.

3. The table below sets out for each of the 24 countries:

- (a) The period for which the country programme was approved by the Executive Board;
- (b) The annual regular resources planning level;
- (c) The balance of approved regular resources available to the country programme;

---

\* E/ICEF/2008/16.

(d) The amount of additional regular resources for which Executive Board approval is needed to reach the annual planning level for 2009.

## II. Draft decision

4. It is recommended that the Executive Board approve the following draft decision:

*The Executive Board,*

*Approves* a total of \$98,064,270 in regular resources to fund the approved country programmes of the 24 countries (shown in the table to document E/ICEF/2008/P/L.28) for 2009, whose regular resources planning levels, based on the modified allocation system and estimated global levels of programmable regular resources, are higher than the levels originally approved by the Executive Board.

Table  
**Additional regular resources (RR) 2009**

(In United States dollars)
