Hello! Welcome to our neighbourhood.

We all live here and we like it....

My name is Choti.

I live in this house with  
my sister Meena.

This is Samir and his sister Saira.

We are friends.

They are my best friends.

We have fun together....

Azam and Amaan are always building something.

Sometimes they build some amazing things.

Sometimes they build very strange things.

That is Farha at the window.  
She is like our elder sister.

If anyone is in trouble or feeling  
sad, they go to Farha.

She doesn't hear properly but that is not a problem.

We all learnt how to talk with her. She is the wisest person I know.

We talk with her like this....

We talk with her like this....

But not like this....

But not like this....

We talk with her like this....

But not like this....

And like all families we  
have our fun times....

I like the people around me.  
We are like one, big family....

...And our 'I wish I was not here' times....

...And our 'we need to help' times.

But whatever the time,

we are all one big family.
